

# Superstitious

Big Time Rush

I'm defenseless  
At your fingertips  
You're writing a script for two  
And it's reckless  
But I can't resist (no)  
You're pulling me into you

Now you're under my skin  
Never letting you go  
Got me drowning in this mattress alone

I ain't superstitious  
But you're throwin' down the magic on me  
(Ba da da da da da)  
(Ba da da da da)  
Genie in a bottle  
Got me wishing that it's meant to be  
(Ba da da da da da)  
(Ba da da da da)  
We can run away for the hell of it  
My name on your lips is adrenaline  
Can't breathe  
(Ba da da da da da)  
(Ba da da da da)  
I ain't superstitious  
But I love it when you make me believe  
(Throwin' down the magic on me)  
(Throwin' down the magic on me)

Trying not to over think it  
Damn  
Never mind no escaping it  
I'm dreamin' while I'm wide awake  
Invading my brain yeah

The thought of you controlling me  
I can't fight it  
Your body painted on the back of my eyelids  
You're the one I wanna see in my bed every night  
Night yeah

I ain't superstitious  
But you're throwin' down the magic on me  
(Ba da da da da da)  
(Ba da da da da)  
Genie in a bottle  
Got me wishing that it's meant to be  
(Ba da da da da da)  
(Ba da da da da)  
We can run away for the hell of it  
My name on your lips is adrenaline  
Can't breathe  
(Ba da da da da da)  
(Ba da da da da)  
I ain't superstitious  
But I love it when you make me believe  
(Throwin' down the magic on me)

(Throwin' down the magic on me)

Now you're under my skin  
I'm never letting you go  
What a beautiful dream  
Never wake me up  
Swear I'll believe anything  
If it'll get you close  
No more drowning in this mattress alone  
No no

We can run away for the hell of it  
My name on your lips is adrenaline  
Can't breathe  
(Ba da da da da da)  
(Ba da da da da)  
I ain't superstitious  
But I love it when you make me believe  
Magic on me  
Magic on me
