## Big Time Rush

Yes

Stunned at the sight of ya  
Can I confide in ya?  
I'm tempted to fall in love  
Come on, baby, light it up  
I can provide for ya  
Push the rest to the side for ya  
Switch up my life for ya  
Come on, baby, sign me up

We don't have to complicate  
The night or hesitate  
Can't fight what's right in front of us, yeah

Let's sink in  
I know whatcha been thinking  
This is more than a feeling  
I see that look in your eyes, eyes  
Drift in  
You got what I've been missing  
2021 vision  
I see myself in your eyes, eyes  
Let's make waves

Woah, oh (Yeah)  
Woah, oh, you wanna  
Woah, oh, we're gonna  
Woah, oh, woah  
Woah, oh, woah

It's about time  
Can you feel the vibrations  
We could talk it out on vacation  
Cut the distractions  
Words into actions  
You're my new passion, yeah

We don't have to complicate  
The night or hesitate  
Can't fight what's right in front of us, yeah

Let's sink in  
I know whatcha been thinking  
This is more than a feeling  
I see that look in your eyes, eyes (See the look in your eyes)  
Drift in  
You got what I've been missing (Baby)  
2021 vision  
I see myself in your eyes, eyes  
Let's make-
