

It's when the first hit kicks
And the colors burn brighter
When your guard goes down
And the child's in your eyes

I know the days are getting shorter
Feels like you're living in a corner of your mind
But you can live it
If you just give it up

I'm always saying
Oooh it's fun
But it keeps me on the run
Always shining in the light
Always wanting some more
It's fun
Keeps me on the run
Always shining in the light
Always wanting some more

It's a loquat tree
Soaring higher and higher
With it's arms out wide
Drops of fruit so ripe

The world has faded in the distance
Cause everything you need is glistening in your hand
But there's a weight now, just
Don't be afraid now

Oooh it's fun
But it keeps me on the run
Always shining in the light
Always wanting some more
It's fun
Keeps me on the run
Always shining in the light
Always wanting some more

I'm always saying
Oooh it's fun
But it keeps me on the run
Always shining in the light
Always wanting some more
It's fun
Keeps me on the run
Always shining in the light
Always wanting some more

Oooh it's fun
But it keeps me on the run
Always shining in the light
Always wanting some more
It's fun
Keeps me on the run
Always shining in the light
Always wanting some more

Oooh it's fun
But it keeps me on the run
Always shining in the light
Always wanting some more
It's fun
Keeps me on the run
Always shining in the light
Always wanting some more

Oooh it's fun
But it keeps me on the run
Always shining in the light
Always wanting some more
It's fun
Keeps me on the run
Always shining in the light
Always wanting some more...
