

## Red Sun

Big Wild

Last night I closed my eyes  
But I got no rest  
A secret deep inside  
Pounding in my chest

And when I tried to hold you  
You just turned away  
Turned away

Your silence is so loud  
I drove myself right out  
I wanna fly away  
Higher in the ether, together

Ooo I'll see you in the red sun  
Ooo there's no going back now  
Ooo I'll see you in the red sun  
Ooo there's no going back now

I don't wanna hide behind  
The image that I made  
I want you to recognize  
The person that remains

I'll say I'm sorry  
But we'll never be the same  
Be the same

A thousand questions now  
I pour myself right out  
The sun is coming high  
Not without a fight, is the love still, in your eyes?

Ooo I'll see you in the red sun  
Ooo there's no going back now  
Ooo I'll see you in the red sun  
Ooo there's no going back now

Don't wanna strengthen my disguise  
The weight is lifted, love is high
