

# Shadows

Big Wild

Shadows in the distance  
Waiting for a fall  
Dots of doubt that hide beneath my skin  
And hold me like a wall

I'll keep holding on  
For a place where I can dream  
For life that I have seen  
Still holding on  
For where the lights go out but still I find my way

Oh, oh  
Oh, oh

I'm here searching for myself  
And my shadows here to help  
Got me through this perilous place  
'Cause there is forces lurking in the dark  
Trying to tear this world to parts  
But as long as I will let me, I'll keep

Holding on  
For a place where I can dream  
For life that I have seen  
Still holding on  
For where the lights go out but still I find my way  
Holding on, oh  
For a place where I can dream  
For life that I have seen, oh  
Holding on  
For where the lights go out but still I find my way, yeah
