

Touch

Big Wild

Tell me is it true
(Is it true?)
That love without a spark
Leaves you in the dark

Gripping at my heart
Searching for the surface
Starting to get nervous
I'm feeling lonely
Show me some mercy
Ooh now, 'cause I'm thirsty
These demons creepin' closer
Fighting what's inside

No echoes in the desert
No one to hear you cry
Howlin' at the moon
But my throat is getting dry
Desire at the wheel
Takes a turn for desperation
It feeds my motivation

Ooh, I'm waiting for your touch
Ooh, I'm waiting for your touch

Haunted by your ghost
Traces of your skin
Voices breaking in
Where have you been?
Forgotten all in the moment

No echoes in the desert
No one to hear you cry
Howlin' at the moon
But my throat is getting dry
Desire at the wheel
Takes a turn for desperation
It feeds my motivation

Ooh, I'm waiting for your touch
Ooh, I'm waiting for your touch

Back to where we started
Will we end up where we started?

Ooh, I'm waiting for your touch
Ooh, I'm waiting for your touch
Ooh, I'm waiting for your touch
Ooh, I'm waiting for your touch
Ooh, I'm waiting for you
