

Sunlight

Big Words

Sunlight has graced her skin
She sells sea shells on pattered clothes
Songs I wrote a long time ago
Brought me close to the one I hold
I know beautiful when I see it
Won't stop my heart from it beating
I won't run with no reason
I got something to believe in
Anywhere the wind blows
Far away from people
Never mind what they do
As long as I can take you
Away from this wonderland
I'll show you how to live again
Freedom in this place where music makes me feel

Above the silver lining
I will sweep the clouds away for you my love
Burning star give her your all

You could be the one to bring me down
But I'm living it up now, I'm living it up now
You could be the one to bring me down
But I'm living it up now, I'm living it up now

Sunlight has graced her skin
She sells sea shells on pattered clothes
Songs you wrote a long time ago
Brought you close to the one I hold
You know beautiful when you see it
Won't stop your heart from it beating
You won't run with no reason
You got something to believe in
Anywhere the wind blows
Far away from people
Never mind what they do
As long as I can take you
Away from this wonderland
I'll show you how to live again
Freedom in this place where music makes you feel

Above the silver lining
I will sweep the clouds away for you my love
Burning star give her your all

You could be the one to bring me down
But I'm living it up now, I'm living it up now
You could be the one to bring me down
But I'm living it up now, I'm living it up now

And as I look outside my window I can see these streets alive
Go to sleep at half past nine, while I blaze one up inside
And I remember, the smile you used to wear when the happiness was there
But now I'm older, and I can see the world inside my hands
And if you ever let me down know that I'm one to stick around
Until you fuck me round like I don't even care
From the first hello to the last goodbye, it never really dies

From the first hello to the last goodbye, it never really dies
From the first hello to the last goodbye, it never really dies
From the first hello to the last goodbye, it never really dies

From the first hello to the last goodbye, it never really dies
From the first hello to the last goodbye, it never really dies
