

Alibi

Big Wreck

Whoa

We open up on a battle scene
It's hard to see
Just tired of lookin' at all this ancient history
The need to define and really refine
What's over me
I still get lost in familiar places constantly

Alibi

It's nice when they're not needed
You're all tongue tied
Remember how you pleaded?

The missing pieces surround you
Just like fireflies
I'm tired of running from what I'll never realize
I need to turn down
I need to burn down and sacrifice
The way that I used to look out into tainted eyes

Alibi

It's nice when they're not needed
(It's nice when they're not needed)
You're all tongue tied
Remember how you pleaded?
(Remember how you pleaded?)

Oh, I said I was gonna
I'll change if you wanna
Still need to fill the void
Oh, it's too loud for silence
But never too late to try it
Again

I'm over-thinking the meaning of just how to be
I need the feeling of nothing, there's just you and me

Alibi

It's nice when they're not needed
(It's nice when they're not needed)
You're all tongue tied
Remember how you pleaded?
(Remember how you pleaded?)

Alibi

(Well I know you can feel it, know you can see it in the west end)
It's nice when they're not needed
You're all tongue tied
(I feel it change, feel it change)
Remember how you pleaded?
(I feel it just comin' around again)
