

Around

Big Wreck

I don't need to sleep in my own bed
'Cause I'll find somewhere to rest my head
Well, I'm just lookin' for a reason to be
Somewhere in your proximity
'Cause

I just wanna be around
I just wanna be around

I've never had the timing I should
Always just happen to be in your neighborhood
Well, I was wondering if you understood
That I would be somebody else if I could
Well

I just wanna be around (I just wanna be around)
I just wanna be around (I just wanna be around)
Making myself easily found (I just wanna be around)
I just wanna be around

If I could just make you see it
If I could just make you see what it's worth
I know I can make you believe it

Oh, it always seems I end up okay
Oh, words'll just get in my way
Memorize the lines and forget every single day
I guess there's nothin' more to say

I just wanna be around (I just wanna be around)
I just wanna be around (I just wanna be around)
Making myself easily found (I just wanna be around)
I just wanna be around (I just wanna be around)

I just wanna be around (I just wanna be around)
I just wanna be around (I just wanna be around)
Making myself easily found (I just wanna be)
Making myself easily found
