

## Bail Out

Big Wreck

Tired of all the back-talk  
We'll goggle it up  
While the tail is still tucked away  
The only way out is through the bottom  
And let's hope they're gonna take the bait

Look 'em right in the face  
So better the taste of candy and I notice that you stayed away  
Bit by bit  
They feed this shit  
'Till it's all that runs in the vein

Oh, it's flat flattery Kool-Aid  
You take so much more that you gave

All the horses  
All of the men  
Are lining up again  
Looking for a bail out

If you need to bum a light  
Got a flat line mic right before you got something to say  
But for all I know  
With the seeds I've sewn  
It might as well have been given away

You're never gonna stop it  
From rising and dropping  
While you're looking at your capital gains  
But from where I sit  
Bit by bit  
Every say they're chipping away

Oh, it's flat flattery Kool-Aid  
You take so much more that you gave

All the horses  
All of the men  
Are lining up again  
Looking for a bail out

Fires and floods  
We follow the trends  
Save the bull and the bear  
Here's to one more bail out

Information moves all day  
I know  
Buy low  
I know  
Information moves all day  
I know  
Buy low  
I know

All slack-jawed and drooling out  
But are we gonna be saved?

All the horses  
All of the men  
Are lining up again  
Looking for a bail out

Fires and floods  
We follow the trends  
Save the bull and the bear  
Here's to one more bail out
