

# Control

## Big Wreck

Every now and then  
I can feel this feeling  
Hooking up to back when  
Theres a difference  
Can tell the difference  
Between history and regret

It's the same old world  
Where we grew up  
And there's no one  
To blame for why  
We're all screwed up  
You can bury your head  
In a great big hole  
Did you ever believe  
That you were in control?  
In control

I can be a picture  
Be it with me  
Beat it baby  
Beat the monkey back down  
It never feels  
Like the real feeling  
Dealing with the poor  
hand me downs

It's the same old world  
Where we grew up  
And there's no one  
To blame for why  
They're all screwed up  
You can bury your head  
In a great big hole  
Did you ever believe  
That you were in control?

We're locked out of heaven  
And its all my fault  
You never noticed I had it  
Til it starts to fall

Remember the boy  
Who never grew up  
They've put him away  
And now he's all screwed up  
He's swallowing pills  
Knows when to say when  
He gets to believe  
He'll be just like them

It's the same old world  
Where we grew up  
And there's no one  
To blame for why  
They're all screwed up  
You can bury your head

In a great big hole  
Did you ever believe  
That you were in control?
