

## III Advice

## Big Wreck

Let him break your bones  
He'll drop the sticks and stones sometime  
I'll serve it bloody rare  
The animals don't care anymore  
I'll hang out on descend  
If it comes to an end sometime

Once, in a way, you go  
I'll keep it up to let you go

Talk and work it out  
She'd rather scream and shout this time  
Don't leave 'cause you're too good  
Now, won't you cause you could, lately?

Once, in a way, you go  
I'll keep it up to let you go

'Cause all I have is what you left behind

Keep it up till you go away  
Keep it up till you go away  
Keep it up till you go away  
Keep it up till you go

'Cause all I have is what you left behind  
And emptiness is what you left behind
