

# Weightless

Big Wreck

We left this place a long ago  
With lands and shares, you see  
With miles to go I must confess  
I wondered if you could be free

Keep your hands on the table  
Your eyes on the door  
Once I was able  
I told you no more

And when this is over  
It's finally over  
I'm weightless

I'll watch their eyes from far away  
With planets in between  
Our minds are blown as screens have shown  
But we happily feed the disease

Keep your hands on the table  
Your eyes on the door  
Once I was able  
I told you no more

And when this is over  
It's finally over  
I'm weightless

Ooh you're just out of breath  
This is just a test  
Gravity pulls all our strings

I'm moving on  
I'm moving on

With miles to go, I must confess  
I wondered if you could be free

Keep your hands on the table  
Your eyes on the door  
Once I was able  
I told you no more

And when this is over  
It's finally over  
I'm weightless
