

# You Caught My Eye

Big Wreck

Well you can set em up  
And knock em down  
One by one  
You can tell your  
Friends about it  
How we had some fun  
Ill tell you why  
Yeah, yeah, yeah  
You caught my eye

Everybody's talking about us  
One in every crowd  
I've never been the type of guy  
Who's singing it out loud  
But you caught my eye  
Oh yeah, yeah yeah  
You caught my eye  
Oh

There's no other way to put it  
So let's not even try  
You caught my eye

For so many fellows run their mouth  
And so few of them know  
How to make you messy, babe  
Dripping on the floor  
You caught my eye  
Oh yeah, yeah, yeah  
You caught my eye

Well I wasted lots of time again  
With talk of getting high  
Now I wanna waste some time  
Climbing up your thighs  
You caught my eye  
Oh yeah, yeah yeah  
You caught my eye

Well there's no other way to put it  
So let's not even try  
You caught my eye

Well some we will  
And some we won't  
I don't even care  
Even if you're walking by  
Nose up in the air  
You caught my eye  
Oh yeah, yeah yeah  
You caught my eye

Well there's no other way to put it  
So let's not even try  
You caught my eye  
There's no other way to put it  
So let's not even try

You caught my eye
