(KJ let the beat knock)

A, I know these bitches don't love me
They like how I keep lots of cash on me I'm really thuggin'
Fo' shots from my revolver tapped his bitch ass in his nugget
Keep shots up on me daily they know I won't go for nothin'

Bitch I'm thuggin'
This glock ain't just for show really gone up it and gone bust it
I'm really CEO I bet some die you catch me cussin'
Don't even argue with my bitch the fuck I look like fussin'
With a nigga that's finna die the second that he touch me
Don't even try it
Can't name a nigga ever played with us and he'en died
He die today bet that's okay I bet he bring five
If that's yo bitch and he ain't fucked her that mean he ain't tried
Hoe I'm the P in pride
Nigga play me like this 2K he might never breathe again
Hit him in the face now his left eye might never see again
Bitch ask me to put her in a car my mama ain't even in
Bet I buy a bitch a bike before I put her in a Benz
A that hoe tripping
And I deserve whatever happen ever catch me slippin'
Seven shots to his chest so quickly hit 'em with the switches
Finished the boy up with that sixty we did'em ridiculous
Bet you can't name a shoot out I been in and ain't get off
They kilt my cousin they done fucked around and pissed me off
Need fo' mo bodies from my niggas or they gettin' cut off
New app pack knocked him off
His dead ass don't make me cough
Come back and haunt me bet his dead ass gone die again
He tried that shit I bet this dead ass can't try again
KSBG my niggas crip, blood
Some bang the fin some bosses too sliding with Lil B and Mac Blue to the end
Free the rest out the pen

2020 ass gangsta nigga new to killing
Switch on me a choppa regular glock that's Nuskie Living
This shit ain't new to me went straight to sleep I'm used to killing
Won't talk about no missions ain't telling business to bitches
