BigKlit

Smokin' Zaza, red dot bloody in my irises  
I don't like these humans, all these niggas is some viruses  
Bring the antibodies out and cut out all the minuses  
Bluetooth signal to the cosmos, it's wireless

MK-MK-Ultra, baby, I'm a vulture  
Feel my wrath, evil laugh, big Chocha (Ha)  
Feel my wrath, evil laugh, big Chocha (Ha)  
La Vida Vida Loca

You kill them all with flattery, I kill them all with battery  
Armed battery, you niggas mad at me  
Huh, you niggas mad at me 'cause you can't handle me  
And you bitches mad at me 'cause you can't act like me

La Vida Vida Loca

And they tweak on me like Coca  
Doing all that talking

I had a dream so I had to plot  
Life ain't what it seems, everybody rot  
I have Prada in my seams, clock in my jeans  
I had to work for what I got, all I know is self-taught
