

Falling

BigKlit

I'm falling
All the way down
All the way down
I'm falling
Falling, falling
I'm all the way down
I'm falling
All the way down
All the way down
I'm falling
All the way down
All the way down

There's something inside of me
Now my innocence is just a memory
Gazing into the deep
Now I'm the monster that I didn't wanna be
Lets go x4
If I gotta be on Earth you go for my fall
Lets go x3
Falling, falling for you
Fuck your authority and the majority
I'm number one, bitch, priority
I'm on my sorcery
Can't compete with them aliens
Falling from the sky
Human genocide

I'm falling, falling
All the way down
All the way down
I'm falling, falling
All the way down
All the way down
I'm falling, falling
All the way down
All the way down
I'm falling, falling
All the way down
All the way down
I'm falling
I'm falling
