

Jekyll & Hyde

BigKlit

Fuck school, Ima drop out
Fuck 12, bring the cops out
BigKlit, but my cock out
You can tell them niggas pop out
Them bodies gonna drop now
I can never that, bitch I'm bussin if they gun down
They only come around because it's fun now (cause it's fun now)
But you wasn't there when I was low and that was dumbfound
Been down bad, but still I prevail
[?] baby, I cut em off like a nail
Real bad bitch, I'm the queen of hell
Wicked with the pop, wicked witch with the spell

Theirs no pupil in my eye, I hear two of me, Jykell & Hyde
Now its me and my shadow
When we die, we die alone
I cry alone, I'm on my own, all alone

[BigKilt:] Not again, No
[Demon:] You can run but you can't hide

I wanna do good, but I love bad
I turn into someone else when I get mad
Had to love myself, cause I didn't have a dad
I wish he was there, but it didn't make me sad cause it turned
me into a savage
BigKlit, I'm the black heart bandit
Attitude nasty, attitude rancid
You don't want these demons bitch, you don't want no static

Theirs no pupil in my eye, I hear two of me, Jykell & Hyde
Now its me and my shadow
When we die, we die alone
I cry alone, I'm on my own, all alone
