

My Time

BigKlit

It's my time now
I remember lighting candles cuz the light's out
I had to do some things that I ain't fine about (I'm sorry)
Just so I could eat, but I ain't cryin' now
Cuz it's mine now
It's my time now
I remember lighting candles cuz the light's out
I had to do some things I ain't fine about (I'm sorry)
Just so I could eat, but I ain't cryin' now
Cuz it's mine now
It's my time now

Human shit is not my [?] bitch
I talk ruthlessness
Who is this
You don't know my struggle
I been through the pits
Saint Pit, had to grow my wings so I could make it
Bitch why you judging me (why)
You should be judging you
They on that hating shit, it's such a basic thing to do
He in love with me, but I ain't loving you
My ex be bugging me
I squash that like a recluse (stop callin' me)

Who the fuck is gonna stop me now
I'm the queen and I gotta hold it down
Stupid bitch, bet, I'll kill for the crown
Don't believe me you can get the whole round

It's my time now
I remember lighting candles cuz the light's out
I had to do some things that I ain't fine about (I'm sorry)
Just so I could eat, but I ain't cryin' now
Cuz it's mine now
It's my time now
It's my time now
I remember lighting candles cuz the light's out
I had to do some things that I ain't fine about (I'm sorry)
Just so I could eat, but I ain't cryin' now
Cuz it's mine now
It's my time now

You can see the pain in my eyes, it don't lie
You can feel the energy, I gas up and ignite
I don't back down bitch I box up and I fight
I don't give a fuck and I ain't afraid to die
You can see the pain in my eyes, it don't lie
You can feel this energy, I gas up and ignite
I don't back down bitch I box up and I fight
I don't give a fuck and I ain't afraid to die

Who the fuck is gonna stop me now
I'm the queen and I gotta hold it down
Stupid bitch, bet, I'll kill for the crown
Don't believe me you can get the whole round

It's my time now

I had to do some things that I ain't fine about (I'm sorry)
Just so I could eat, but I ain't cryin' now
Cuz it's mine now
It's my time now (let's go)
