

Spaceship

BigKlit

The fuck is going on here?
Where the fuck am I, bitch?
Huh? What?

I remember waking up in a spaceship
The aliens told me I was Satan
Took my DNA and started mating
Now I got a whole army waiting
It's a new world order, order
Fuck that shit, bitch we kicking down your borders
I want all control, I'm a hoarder
AI in my head like a disorder

Blind with the Christian shit
But I'm fucking on a fucking Christian bitch
I hit it at church, had to make it work
Hallelujah, thank God for a Perc
Thank God for a Perc, dirt, hit real flirt
But I don't even flirt 'cause that shit nerd
ET, phone home, yeah, y'all give a dirt
Get me outta here in a hurry, zoom

I remember waking up in a spaceship
The aliens told me I was Satan
Took my DNA and started mating
Now I got a whole army waiting
It's a new world order, order
Fuck that shit, bitch we kicking down your borders
I want all control, I'm a hoarder
AI in my head like a disorder
