Got the devils daughter tatted on my cheeks
Got the devils daughter tatted on my cheeks

Light the L, enjoy the ride
Got the devils daughter tatted on my cheeks
Light the L, enjoy the ride
Got the devils daughter tatted on my cheeks

Slit the tongue, slit
Slit the tongue from the root
Slit the throat
Cut the tongue, from the root
From the root

Cum and blood stains
On my bed frames
And my Gucci frames
I love the fuckin' pain
All you bitches ops
All you bitches lame
All these tequila shots
I take em' to the face
I need the beat to drop
It take me to a place
Where the demons rot
Let them rot away
Do you want to play?
I play for keeps
Go the devils daughter
Tatted on my cheeks

Got the devils daughter tatted on my cheeks
Light the L enjoy the ride
Got the devils daughter tatted on my cheeks
Light the L enjoy the ride

I light the L enjoy the ride
Got the devils daughter tatted on my cheeks
Light the L enjoy the ride
Got the devils daughter tatted on my cheeks

Slit the tongue, slit
Slit the tongue from the root
Slit the throat
Cut the tongue, from the root
From the root
