

Stick Up

BigKlit

Super

Stick up
Bitch get on your knees and don't get up
I'ma make him breathe when he hiccup
I feel like a sheep in the system
Ain't nobody every really listens
If I cut you, then you'll bleed like a human
Don't know why you act like you ain't human
I'm talking to a brick wall
To a brick wall
To a brick wall

You can lead a horse to water but you can't make it drink
Try to save you from you, but you already sinked
You could act real hard, you could buy anything
But you still can't turn black into pink
Get a life, get a shrink
Cause I'm bout to beat
And I ain't got the time, for the bitch into crying
I been stop trying, stop stealing my shine, bitch

Stick up
Bitch get on your knees and don't get up
I'ma make him breathe when he hiccup
I feel like a sheep in the system
Ain't nobody every really listens
If I cut you, then you'll bleed like a human
Don't know why you act like you ain't human
I'm talking to a brick wall
To a brick wall
To a brick wall

The angel that shines
I'm ducking, dodging the light
I know I'm living to die
But I'm enjoying the fight
He said these demons ain't real
But that was a lie
And I can't run
I can't hide
I had to choose my side
I took a piece of the pie
And I ain't ever been shy
Off that [?] and [?], seeing reptile baddies
Yeah, life is a trip
I fell down the rabbit hole
And landed my ass in a pot of gold

Stick up
Bitch get on your knees and don't get up
I'ma make him breathe when he hiccup
I feel like a sheep in the system
Ain't nobody every really listens
If I cut you, then you'll bleed like a human
Don't know why you act like you ain't human
I'm talking to a brick wall

To a brick wall
To a brick wall
