

## Suffocate

BigKlit

Suffocate  
Got a big heart full of hate  
Suffocate  
I can hear your breath fade away  
Suffocate  
I'm a big shark, you bait  
Suffocate  
Put that fat ass on my face  
Suffocate [x7]

Things are never what they are  
Don't end up wishing on a star  
You never know if it'll come true  
Made a wish and it came true  
Anything I think comes to life  
Saw a vision of me and your wife  
Put her face in the pillow  
Make her scream till she cry  
Papi, you know you mine  
Papi, you're on my mind  
Papi, you're on my mind  
Papi, you're on my mind  
Papi  
Papi

Suffocate  
Got a big heart full of hate  
Suffocate  
I can hear your breath fade away  
Suffocate  
I'm a big shark, you bait  
Suffocate  
Put that fat ass on my face  
Suffocate [x7]

So, you run around in circles  
But you can't run like me  
A hundred yard, dash, fast  
Quick on my feet  
So, you run around in circles  
But you can't run like me  
A hundred yard, dash, fast  
Quick on my feet
