

## Slim Shady

BigWalkDog

Hey, like a story (Oh my God, is that Avery?)

Hey

Sometimes it feel like I can save the world, sometimes I can't (Hey)

But I know I am, I'm superhero to her, man (Hey)

Let me tell y'all a story I heard (Hey)

I done fell in love with the foreign cars (Vroom)

The rule to the gang, gotta eat or starve

You see me outside with the heat regardless (Fah)

I don't give a goddamn if it's cold, no (BigWalkDog)

On the block, he just wanna beat the odds (Beat the odds)

Young nigga with me, keep playin' your cards

That nigga my dog, he done wrapped it all

But right now, he'll pull up with the pole, oh (Frirt)

He'll never change up for the fame (No)

But one thing I know, he is not the same

From the streets, so he tried to do the right thing

But as soon he seen red, then the light green

Soon as he seen green, then it mean go (Go)

He went sleep rich, but he woke up broke (Broke)

Probably ain't never had ghetto dreams before (Why?)

After that, he ain't never wanna sleep no more

'Cause when you go to sleep (You go to sleep), all you do is dream (Is dream  
)

Nightmares, they happen too, but sometimes nightmares ain't what they seem (  
Wow)

But he woke up high like, "Fuck a dream"

In a nightmare, gotta get the green

Say he feel like Shady, want his closet clean

Say it feel like somebody's watchin' me (Shady)

Say it feel like the feds watchin'

Put it in the wall, ain't no safe deposit

'Cause his money got big, he can't use no wallet (Wow)

And it's all dirty money, he can't use no washer

Hood nigga in the bank, I don't even get proper

Lil' white yeah, rich, say her daddy a doctor

Lil' niggas 'round me turn your ass to a faucet

They'll do it off the love, they don't need no dollars

They'll do it just because, they ain't got no options

If they play, make 'em send a hit like safi (Wow)

I went gold in the street, that was way 'fore poppin' (Woah)

I put on this AP just so they watch me (Woah)

Put on all of these chains 'cause it ain't no reachin' (Wow)

All through school, I ain't get no teachin' (Uh-uh)

Subtract bullshit, make sure it's leavin'

Add up the money, make sure it's equal (Frirt)

I done fell in love with the foreign cars (Vroom)

The rule to the gang, gotta eat or starve

You see me outside with the heat regardless (Fah)

I don't give a goddamn if it's cold, no (BigWalkDog)
