

Yeah

Sun's goin' down, I'm on my way
Tryna keep the car steady
But I been thinkin' 'bout it all damn day
So strong, I'm weak, I can't, one and done
Usually I be rumbled out but now it's too late to run, I can't

Baby, I'll be your baby anytime, anyplace now
Tell me what you want, what you need, don't lose faith now

Monday, Tuesday, you know I gotta have it
Wednesday, Thursday, twenty-four-seven
Anytime of day, anytime or place
I'll be around, baby, I'll be around

Conflicted, you got me trippin', feel like I don't know what to do
Addicted to your love, I swear it's like a drug, I'm strung out on you
So lately I been feeling like, I need you all day and night
Twenty-four-seven, we could be together every second of my life
Buried in your skin, kissin' on your flesh
Listenin' to your heart, never be apart
Friday came and went, sadness in the wind
Hope Sundays never end, but, yet, we here again
We circle right back to

Monday, Tuesday, you know I gotta have it
Wednesday, Thursday, twenty-four-seven
Anytime of day, anytime or place
I'll be around, baby, I'll be around

Monday, Tuesday, you know I gotta have it
Wednesday, Thursday, twenty-four seven
Anytime of day, anytime or place
I'll be around, baby, I'll be around
