Ay these diamonds they shining
Came from Johnny
It ain't ever been too hard to find me
All this ice got me changing my climate
Bought this car to switch my time
These niggas is bitches that's just a reminder
Stay away from the snakes because they slimy
Stay away from the fakes because they grimey
Not teaching no lessons I'm just being honest

600 the block the label the set
Roll the dice on me place your bet
Name a nigga that's harder than me that you met
Get your body heat out in the valley like red
I been balling so hard I done worked up a sweat
Vicky Valenquart water my nigga I'm a dog off the leach
I ain't nobody pet
Soulja Boy all these stack on deck
Pour a 4 in the sun it came from anxiety
I really be feeling too modest
Bitch I'm the hottest
Words in the mouth throwing awards
Before you whip came and got 'em
The show still rocking the label can't drop me
I get sloppy toppy from bitches who top me
But still in their bonnet really the one who they watching
I ran up this shit like Rocky
Left out the streets could've went vegan
'Cause these niggas ain't really having no beef
Spent the house on my teeth
Baby rays sauce man all of these niggas is sweet
Johnny iced-out my piece
Teaching piano ay I really been playing with keys
Ya man on my feet cut off the leeches now
These niggas really ain't shit without me

Ay these diamonds they shining
Came from Johnny
It ain't ever been too hard to find me
All this ice got me changing my climate
Bought this car to switch my time
These niggas is bitches that's just a reminder
Stay away from the snakes because they slimy
Stay away from the fakes because they grimey
Not teaching no lessons I'm just being honest

Offset
Okay
Let me come pop it uh uh
Went to the top and I shocked 'em, a socket
Counted me out but I do it for rocket take
I took ya bitch on a jet to the tropics
Post on the block with the work come and shop it
The flame make it rain make the bitch come and mop it
That nigga snitched for his pick hit the docket
Wrist got a lisp and it's spitting out aqua
Dig up his grave if you reach for my chain

I ain't never been named
Let that chopper go bang
Hit at drill and we popped his ass off like champagne
Green and whites forges this shit Notre Dame
Doub-double R Cullinan brick of cocaine
Mental illness the coupe got no brains
No filter bitch I'm tryna fuck on your friend
Make the bitch sit down
A dog how she trained
Put her in Prada she told me she proud of me
I'm 'a shit on the ones that had doubted me
I won't let a broke boy get no clout on me
I'm 'a let a hoe boy get this 30 piece
Niggas try to call but they can't get no reach
I'm in Malibu Nobu up on the beach
White diamonds albino up in my teeth
Feel like Pac I been praying for my enemies

Ay these diamonds they shining
Came from Johnny
It ain't ever been too hard to find me
All this ice got me changing my climate
Bought this car to switch my time
These niggas is bitches that's just a reminder
Stay away from the snakes because they slimy
