

Law & Order

BigXthaPlug

(Tony Coles)

Ayy

Twenty-five and I'm having my way, the same nigga in all fifty states
No, I never save, but can make a ho great, get some pape' if she come do whatever I say
50K on my watch, 30K on my face, 60K on your head, if you play, then you lay
Who you know up the score and put on for his state?
You can hate, just don't play with my folks and you great
See, I really been glidin' on shit like a skate
Biggest stepper, when I step on shit, bet it shake
Oh, he harder than me? I don't do the debates
I got cake, I can never get tucked on my plate
Yeah, I got me some munyun, but not for a date
Once I fuck, then I'm done-yun, bitch, get out my face
Fuck the law 'cause my lawyer bet I beat the case
If I can't, call my ese, get moved out of state

If I put in the order, they lay down the law
I just took 50K to a vault
If my bitch want some titties and ass, then it's bought
Just know that I step way more then I walk
If I run into trouble, I got my woo-wop
What's-his-name got a case just behind the woo-wop
Nigga play on my name and I'm sendin' woo-wop
If I put in that order, they lay down the law
If I put in the order, they lay down the law
I just took 50K to a vault
If my bitch want some titties and ass, then it's bought
Just know that I step way more then I walk
If I run into trouble, I got my woo-wop
What's-his-name got a case just behind the woo-wop
Nigga play on my name and I'm sendin' woo-wop
If I put in that order, they lay down the law

Ayy, first off, fuck the fake, feel the real
If you tell, then you need to be killed
Been a lil' minute since I touched the field
I'm the first nigga called if it come to a drill
Ain't no cap, goin' next, they gon' say he for real
Been outside while y'all boys had y'all toys in the crib
I done bought so much water, this shit startin' to spill
I work smarter, not harder, that shit get you killed
First you cut the price, gotta make sure it's thin
Put you on in the head, cut the lights and then spin
Wait like thirty seconds, then go spin again
If it's war, I just gave the instructions to win
No goons in Fort Worth, say the word, they gon' bend
But just know if it's personal, I'm sendin' twin
We don't do controversial, bitch, get in that blend
If he clutchin', then fuck him and all of his friends (Ayy)

If I put in the order, they lay down the law
I just took 50K to a vault
If my bitch want some titties and ass, then it's bought
Just know that I step way more then I walk
If I run into trouble, I got my woo-wop

What's-his-name got a case just behind the woo-wop
Nigga play on my name and I'm sendin' woo-wop
If I put in that order, they lay down the law, ayy
