

Ay

Ay see I been in the rush can't even just stay at the top
Because all of these watches gon' bust
Started holding my nuts
I'm out of all of my opps in the city
Because I'm just feeling so much
Not a hoe that I trust
Unless it's my momma
But she sure lied to her son more than once
She told me that life would be simple
It wouldn't they handed me nothing I turned it to something
I come from the jungle with all of the apes and gorillas
If he rich then I'm facing a mirror
Ahead we ain't doing no race lil nigga
It's coming be patient lil nigga
You know I'm the same
Ain't really changed but the picture
My circle got smaller not bigger
They either was flawed or was standing no business
We cut 'em they better be glad we ain't kill 'em
They known me for rap
But let me then tell you 'bout the dealer
They turned up the spot off a nickle
They used to kick doors 'cause they had to go get it
The one of the first nigga had on a mission
Them niggas was sleep but now that I got their attention
Go tell 'em here is no competition
Ain't really been missing
I come down the court with a slammer
I feel like a 89 piston
This shit get ridiculous
These niggas can't stop what I'm dishing
Got hot so they jump out the kitchen
Niggas be hoes they ain't been for the friction
That's because I really do rap what I'm living
Don't think that it's sweet
'Cause I choose the path for my children
I promise that I'm still a villain
Ya I'm still a stepper that step for a living
Got paper but I swear it's a wonderful feeling
