When I open my mouth bet her pussy get wet  
These diamonds surprising like Russian Roulette  
Might just go buy a lamb I can't fit in a vet  
I can't go with my pole I put this on the set  
If I do and I live Ima spin where they at  
Aye

19 on a hearse selling crack  
Once I double my profit I couldn't look back  
Aye  
Used to laugh cause a nigga was fat  
Now I'm having my way and these bitch niggas broke in they racks  
No capping in none of my raps  
He thought he was up on the boy till I showed him the steps  
Fingers hurting from thumbing through racks  
I feel like a young Dion savage  
2 1 on my back  
But it's still 23 on my strap  
I had dreams a ballin on fields and still writing raps  
Tryna put my whole team on the map  
We already know All em and that's really the facts  
Fully auto A-R it's attached  
So ain't no proof faking in this trigger you playing that stack  
Yea we quick to get fuck niggas work  
But I swerve from the shoulders I'm goated yea I'm really that  
Get him gone hit his bitch from the back  
Then fuck the Hoe over and make her start over from scratch  
600 the block where I'm at  
I think I was 7 years old when my pops had the rap  
But he told that shit in the trap

'Member laws cracking down on the traps  
Just knew I was next I said fuck it and flushed it and bounced  
See this rapping shit came unannounced  
I guess these folks like how I move these lil words out my mouth  
Screaming free Rock and Q till they out  
Niggas pussy they wish they could live what I rap  
Ask them niggas that's solid I bet they'll vouch  
I hit really so hard I ain't open my mouth  
Getting bricks from the country this start with the south  
Other border you don't wanna come near me this side  
Take some lessons I'll teach you lil boys how to trap
