Give it to me, give it to me
Give it to me, give it to me
Give me the stuff, that sweet, funky stuff

Give it to me, baby
Give it to me, baby

Aye, everything that I wanted, stood up and went got it
Don't think I'm the hottest, just watch how I pop it
Wasn't good with the green, off the rocks, I made profit
Started rappin', now I done took off like a rocket
nigga be weird, steady watchin' my pockets
They big and they solid, no need for a wallet
Six pockets full, my whole hood, they behind me
No deal, I'm declinin', don't think I'ma sign it
In these streets I'm the biggest, the fuck would I hide it?
If bro try to slide, then fuck it, I'm ridin'
Big TRX, big FN inside it
Got more shots than Molly, so don't think you should try it
Came up off a bag, might just tell Vay to style me
My jeweler done blind me, think it's perfect timin'
All that shit a dream, the nightmares, they behind me
Had stopped cookin' dope, made too much off rhymin'
I come from that field, in the mud it get slimy
No, I don't take it kindly to cap about a body
Partner just spoke 'bout a bitch tryna rob me, it's cool
But I had that ho son missin' mommy
These nigga be broke with no job, call him "Tommy"
Enough about them 'cause the real nigga shinin'
Got a 30k smile in my mouth, I ain't lyin'
All this ice on my neck, I don't walk, now I'm glidin', hey

Give it to me, baby
Rich nigga make cash off music
Broke the bank on my teeth, another band on my feet
Hit the club and I still went stupid, throwin' ones, sayin'
Give it to me, baby
Put the racks in the palm of my hand
'Member bitches just wanted to be friends
Now I'm up and they yellin', "Big, gimme a chance"
Steady hollerin' out
Give it to me, baby
