When you're goin' after your dreams and you're tryin' to be successful in life
You're gon' miss out on a lot of things, man
You're gon' miss out, time with your kids, your loved ones
The people that's close to you
But you gotta make them sacrifices in order to
To get where you wanna get at in life
I'm talkin' 'bout it's a lot of things you're gon' have to do
It's a lot of things you're gon' have to let go
But at the end of the day, nothin' is goin' to supersede you
Gettin' to a better place
So you can look out for them people that you gon' miss some beautiful moments with
You gotta get there and by any means necessary
You gotta go out there every day and go hustle, and go grind, and stay
You gotta stay up on it
And it's gon' be difficult
It's gon' be difficult, it's gon' be a lot of times, you gon' have, doubtin' yourself
You gon' ask yourself if I'm doin' the right thing
You gon' know you doin' the right thing 'cause you gon' keep goin' at it
So you can get in a better place for you and the people you love
