

I like it when the sun goes down
I like it when the booze comes out
I like it when you're talking loud
And shouting 'we gon make it babe'
Funny to see how its relevant now

I like it when the kitchen's clean
I like it when you pull me close
I like it when we're late
Because we're making love
And afterwards my skin smells sweet
Just like your cologne

You ain't got to do nothing
Baby when I'm with you its gold
And it's golden
And you ain't got to do nothing, no no no
'Cause baby when I'm with you its gold
And yeah it's gold

I like it when we watch TV
I like it when there's nothing on
I like it when we talk about
How shit TV can be and find
How it inspires me to write a song

I like it when you kiss my neck
I like the way the tingle feels
I like it when I dream of you
And wake to find that life is bless
I like it when I realise my dreams are real

And you ain't got to do nothing
Ooh, baby when I'm with you its gold
Yeah it's golden
And you ain't got to do nothing (no no no)
Baby when I'm with you its gold
And it's golden

I'm saying
Don't you ever change
Don't you ever change
Don't you ever change
Don't you ever change
Don't you ever change
'Cause you're golden
