Biig Piig

Oh, you could've hit me with the bad news first
Only takes a sec before the drugs don't work
Back inside my room bathed in a blood tone light
Yeah, and it was like you could've read my mind

I know you don't wanna be alone
Cause no one does
Cause no one does
Cause no one does
I know you don't wanna be alone
Cause no one does
It's no wonder
Cause no one does
It's no wonder
Cause no one does
I know you don't wanna be alone
Cause no one does
It's no wonder
Cause no one does
It's no wonder
Cause no one does

I still think about the kiss we had that day
No one on this earth could make me feel that way
Breaks my heart to know it was the last time, babe
And I'll take that memory down to my goddamn grave

I know you don't wanna be alone
Cause no one does
Cause no one does
Cause no one does
I know you don't wanna be alone
Cause no one does
It's no wonder
Cause no one does
It's no wonder
Cause no one does
I know you don't wanna be alone
Cause no one does
It's no wonder
Cause no one does
It's no wonder
Cause no one does
I know you don't wanna be alone
I know you don't wanna be alone
