

## Bar

Biig Piig

Who's my husband at the bar  
In this space and since you departed  
My craving's off the chart  
And my lap got so lethargic  
You sure don't miss your friends  
Hope they get what they've been after  
Its like kids they play pretend  
Hope your worlds are living faster

Ain't no more to talk through  
Words stay longer than us  
Ain't no more that's old news  
Grace stays longer with touch  
Ain't no more to talk through  
Words stay longer than us  
Ain't no more that's old news  
Grace stays longer with touch

Man, you're just so full of pride  
Think I might be undecided  
Don't let me fall behind  
No, I've been no fool for trying  
Work so hard to clear my head  
Now in bed with him is tainted  
Do what your sister said  
Moments wished are moments wasted

Ain't no more to talk through  
Words stay longer than us  
Ain't no more that's old news  
Grace stays longer with touch  
Ain't no more to talk through  
Words stay longer than us  
Ain't no more that's old news  
Grace stays longer with touch

(Words stay longer than)
