

I learnt my lesson or, so I thought  
Take a look and see what can't be bought  
I ought to put it in perspective, so I will  
Ain't no kind of bill goin' make my mind sway

You ain't got the cash boo  
But that's not why I love you (yeah)  
'Said you ain't got the cash boo  
But that's not why I love you

Ain't you so pretty when you stare like that  
I mean, it's a pitty she won't call you back  
Set my intuition says there's something here  
Pull me in a little watch it disappear

'Cause you ain't got the cash boo  
But that's not why I love you  
You ain't got the cash boo  
But that's not why I love you

Come let me stay the night  
Come, ask me stay the night  
Come let me stay the night  
Come, ask me stay the night

You ain't got the cash boo  
But that's not why I love you  
You ain't got the cash boo  
But that's not why I love you...
