

When did this get hard?
When did we run out of luck?
Say I'm so run down
But I know I gave enough
Am I stuck right here
Now we know we played our cards?
How did we get lost?
Oh, it all comes down to us

Ask me what I think I believe
I need to see you
Wait to let me answer
You seek what I don't
And I keep having to lead you
Ain't nobody's dancer

I had a dream, I was learning
Then your love took it from me
I had a dream, I was learning
Then your love took it from me
I had a dream, I was learning
Then your love took it from me
I had a dream, I was learning
Then your love took it from me

Don't care about who you know
Man, you're old, you don't scare me
Run down a rabbit hole
Your downfalls, I see you clearly now

Ask me what I think I believe
I need to see you
Wait to let me answer
You seek what I don't
And I keep having to lead you
Ain't nobody's dancer

I had a dream, I was learning
Then your love took it from me
I had a dream, I was learning
Then your love took it from me
I had a dream, I was learning
Then your love took it from me
I had a dream, I was learning
Then your love took it from me
I had a dream, I was learning
(Ask me what I think I believe, ask me what I think I believe)
Then your love took it from me
I had a dream, I was learning
(Ask me what I think I believe, ask me what I think I believe)
Then your love took it from me
