

Candy

Bikini Kill

I swallow my pride
I chewed on your sores
I ate out my heart
I swallowed your cum, it's just my part in it

Just the way
Just the way it is
Just the way it is
Just the way it seems to stay

Don't try and fight me
'Cause I surround you
I really like it, baby
I want to be your candy

Close my eyes
Just try and shut my little tiny mouth, now
I don't really want to hear you anyway
I don't really want to hear you anyway

Don't try and fight me
'Cause I surround you
You really like it, baby
I want to be your candy
