

# I Busted in Your Chevy Window

**Bikini Kill**

I busted in your Chevy window  
Because you made me angry  
I busted in your Chevy window  
Because you made me mad  
You called me a bitch, and you didn't even know me  
You called me a bitch, 'cause you didn't know my real name  
If you would've known me  
You could've hurt me  
If you would've known me  
You might've hit me  
If you would've known me  
You would have called me by my real name  
But you didn't and you called me a bitch and I busted in your C  
hevy window because you made me mad  
I could not bust your weapon because it is your mouth  
I could not bust your weapon because it's a part of your fuckin  
g goddamn body  
But I can bust materials, yes  
I can bust a window, yes  
I can bust a plate of glass that protects you so all the other  
girls can throw stones  
I can bust in your Chevy window  
Because you make me mad
