

## My Generation

**Bile**

People try to put us down  
Because they think we get around  
Things I do look awful cold  
I know I'll die before I get old

It's my generation

Why don't you -- HATE ME  
Don't try to dig what we are  
No, not going to conquer me (hate you)  
Talkin' about my generation

It's my generation.

I know I'll die before I get  
I hope I'll die before I get  
I will die before you  
Old
