

## Faith-void

Bill Callahan

It's time to put God away  
It's time to put God away  
It's time to put God away  
It's time to put God away

Damnin' the children  
Makin' the ill just a little more sick

It's time to put God away  
It's time to put God away  
It's time to put God away, I put God away  
It's time to put God away, I put God away

This is the end of faith, no more must I strive  
To find my peace, to find my peace in a lie  
This is the end of faith, no more must I strive  
To find my peace, to find my peace in a lie

It's time to put God away  
It's time to put God away, I put God away  
It's time to put God away  
It's time to put God away, I put God away

For a void without a question is just perverse  
A void without a question is just perverse  
Like tear gas misters at my grave

It's time to put God away  
It's time to put God away  
It's time to put God away, I put God away  
It's time to put God away, I put God away

For a void without a question is just perverse  
This is the end of faith, no more must I strive  
To find my peace, to find my peace in a lie  
This is the end of faith, no more must I strive  
To find my peace, to find my peace in a lie

It's time to put God away  
It's time to put God away, I put God away  
It's time to put God away  
It's time to put God away, I put God away
