Peace Brother Peace

Bill Medley

Peace, brother, peace Peace, brother, peace All of my sisters All of my brothers Peace, peace, peace

I want you
To tell them to love
Everybody's got to
Love, love, love

All of my sisters All of my brothers Love, love, love

No more talking Everything we say It has been said before

Time for feeling Reaching down into your heart And even more

Time for giving your Hand to your brother Time for changing The man that you are Time to work out Love on each other

Time for peace Time for peace Time for peace I said peace I said peace Time for peace

We gotta get together
Do a little giving
Change our way of thinking
Change our way of living

And Lord, Lord
We've got to stop the hating
And no time left for crying
When the kids are going hungry
And the good men are dying

Got to be now, now
Got to be now, now
We got to go ahead
And climb that mountain
Got to find a way somehow

Got to have peace We got to have peace, peace Lord, we got to have peace Please tell my brother Somehow, somehow I got to reach you All my sisters All my brothers Peace, peace, peace
