

Still On The Run

Bill Miller

Swam across that muddy river
The moon was shining down
The tide was swift and the water deep
But I did not drown
I touched the land of milk and honey
And what I found
A bullet with your name on it
Still has the same sound
And I'm still on the run
Yeah I'm still on the run
I'm still under the gun
Yeah I'm still on the run
I felt the heat of the searchlights
But they were one step behind
Most men would have froze with fear
But it never crossed my mind
I got a woman, she a waitin
She put her heart on the line
There's nothing here can hold me back
Cause love ain't no crime
And I'm still on the run
And I'm still on the run
I'm still under the gun
And I'm still on the run
Swam across that muddy river
The moon was shining down
The tide was swift and the water deep
But I did not drown
I touched the land of milk and honey
And what I found
A bullet with your name on it
It still has the same sound
And I'm still on the run
And I'm still on the run
I'm still under the gun
And I'm still on the run
Well I'm still on the run
Don't you know I'm still running
Still on the run...
