

# Oxytocin

Billie Eilish

Can't take it back once it's been set in motion  
You know I love to rub it in like lotion  
If you only pray on Sunday  
Could you come my way on Monday?  
'Cause I like to do things God doesn't approve of if she saw us

She couldn't look away, look away, look away  
She'd wanna get involved, involved, involved  
And what would people say, people say, people say  
If they listen through the wall, the wall, the wall?

I can see it clear as day  
You don't really need to pray  
Wanna see what you can take  
You should really run away

I wanna do bad things to you (To you)  
I wanna make you yell (Yell)  
I wanna do bad things to you (To you)  
Don't wanna treat you well (Well)

Can't take it back once it's been set in motion  
You know I need you for the Oxytocin  
If you find it hard to swallow  
I can loosin' up your collar  
'Cause as long as you're still breathing  
Don't you even think of leaving

I kinda wanna look away, look away, look away  
Kinda wanna get involved, involved, involved  
And what would people say, people say, people say  
If they listen through the wall, the wall, the wall?

I can see it clear as day  
You don't really need to pray  
Wanna see what you can take  
You should really run away  
Other people would have stayed  
Other people don't obey  
You and me are both the same  
You should really run away

Bad things  
I wanna do bad things to you  
I wanna make you yell  
I wanna do bad things to you  
Don't wanna treat you well
