

All I Want Is You

Billie Jo Spears

If you promised me gold from the stars
Each morning when the sun is high
It wouldn't be enough to see me through
If you promised me the silver lining
From every cloud in heaven shining
They wouldn't be enough
'Cause all I want is you

All I want is you and your love
And your arms to hold me tight
I don't want every riches
They're cold when you are alone at night

Don't offer me the pot of gold
At the end of a painted rainbow
It wouldn't be enough
'Cause all I want is you

Don't offer me the song from a bluebird
Without you it would never be heard
It wouldn't be enough
'Cause all I want is you
