

Daddy, I Love You

Billie Jo Spears

The younger kids are sleeping
Mama's working nights
You are heavy on my mind
So I just thought I'd write

Money's hard to come by
Outside of that we're fine
Little brother talks about you
Almost all the time

Every night I say a little prayer
That he'll keep watching over you
I know you think that no one cares
But daddy, I love you

I've never once heard mama say
Who was right or wrong
I just came home from school one day
And she told me you were gone

You may not want to come back home
And if you never do
Daddy, it won't change the way I feel
I'll always love you

Every night I say a little prayer
That he'll keep watching over you
I know you think that no one cares
But daddy, I love you

Every night I say a little prayer
That he'll keep watching over you
I know you think that no one cares
But daddy, I love you
