

## Stay Away From The Apple Tree

Billie Jo Spears

In the beginning God made the World  
And something wasn't right  
He reached down his hand and he made Man  
Then he smiled, 'cause it was right

But it didn't take long for him to see  
This man was so alone  
So he gave him a woman  
To love and call his own

Now, the Devil had an apple tree  
The fruit, it looked so fine  
Man took a bite, it tasted sweet  
So he stepped out of line

Now today it's still the same  
And I know she's tempting you  
So with all my love and all my heart  
I am begging you

Stay away, stay away from the apple tree  
Don't you know that all she wants to do is hurt you and me  
Stay away, stay away from the apple tree  
And spend all your time loving me
