

# Because of You

Billie Piper

You don't stop  
You don't stop

I remember when I saw you, baby  
You're looking real cool and sexy  
You got me wondering if you saw me maybe  
Oh yeah, babe

Everything you're doing's got me  
Changing my mood  
I got a new attitude  
That's saying something for me

'Cause I was that girl  
Standing alone  
Watching every move you make  
Wishing you would take me home

Because of you I've no sense of time  
I'm losing my mind, I've left the little girl behind  
Because of you the woman in me is setting me free, yeah  
Living out my fantasy because of you

Do you thing there was  
A chance that we could get together?  
The kind of loving that could last forever  
Come rain or shine, no matter what the weather  
Oh yeah, babe

Wondering it's time  
I should be making my move  
I really wanna get you into my grove  
Come and see me I got something to prove

'Cause I was that girl  
Quiet and shy  
Scared to say a word to you  
Hoping I would catch your eye

Because of you I've no sense of time  
I'm losing my mind, I've left the little girl behind  
Because of you the woman in me is setting me free  
Living out my fantasy because of you

'Cause I was that girl  
Standing alone  
Watching every move you make  
Wishing you would take me home

Because of you  
I've made my move  
Because of you  
I'm feeling free

Because of you I've no sense of time  
I'm losing my mind, I've left the little girl behind  
Because of you the woman in me is setting me free

Living out my fantasy

Because of you I've no sense of time  
I'm losing my mind, I've left the little girl behind  
Because of you the woman in me is setting me free  
Living out my fantasy because of you
