

# Day And Night

Billie Piper

All of the day, all of the night  
You do the things that make me feel so right  
My shining star, my guiding light (my shining light)  
And that's the day and night, babe

I just ain't the same when you're away  
You are my inspiration  
I'm hanging on to every word you say  
'Cos you are my motivation  
You make me feel so right  
Every day and night

'Cos the only time I think of you  
Is every day and all night through  
Whenever I breathe you're on my mind  
Every day and night, babe  
All of the day, all of the night  
You do the things that make me feel so right  
My shining star, my guiding light (my shining light)  
And that's the day and night, babe

I need you tonight, but you're not around  
I need to hear your voice, baby  
Something feels strange, there's not a single sound  
I wish you were at my door, babe  
You make me feel so right  
Every day and night

'Cos the only time I think of you  
Is every day and all night through  
Whenever I breathe you're on my mind  
Every day and every night, babe  
All of the day, all of the night  
You do the things that make me feel so right  
My shining star, my guiding light (my shining light)  
And that's the day and night, babe

Gotta let me know, oh, yeah  
When you're comin' home (when you're coming home)  
You know you make me feel so right  
Every day and night

All of the day, all of the night  
You do the things that make me feel so right  
My shining star, my guiding light (my shining light)  
Day and night, babe

'Cos the only time I think of you  
Is every day and all night through  
Whenever I breathe you're on my mind  
Every day and night, babe  
All of the day, all of the night  
You do the things that make me feel so right  
My shining star, my guiding light (my shining light)  
And that's the day and night, babe
