

Future

Billy Crawford

Never had plans for tomorrow
But sitting here with you makes me wanna grow up
Never had time it was borrowed
But the way you look at me makes the man show up
Oh sitting with you
Here on the hood of my car
We dream while tracing the lines of the stars
Baby girl you got me wishing the night never ends
Don't go
Our hearts in the wind
I can do this forever

Baby I'm ready for the future
As long as it's with you
As long as it's with you
With you
Baby I'm ready for the future
As long as it's with you
As long as it's with you
With you

Baby I'm ready
Like I never been ready before
Never been ready before
Baby I'm ready, yeah yeah
I've never been ready before

Never been good at changes
But I could start tonight with you
Yeah
The grey around me's fading
Never seen the night look quite so blue
Oh sitting with you
Here on the hood of my car
We dream while tracing the lines of the stars
Tracing the lines of the stars
Wishing the night never ends
Don't go
Our hearts in the wind
I can do this forever

Baby I'm ready for the future
As long as it's with you
As long as it's with you
With you
Baby I'm ready for the future
As long as it's with you
As long as it's with you
With you

Baby I'm ready
Like I never been ready before
Baby I'm ready
Like I've never been ready before
Oh yeah

Anytime you're ready we can go, go go

You and me taking on the world like woh
Anytime you're ready we can go, go
Just say so, just say so

Anytime you're ready we can go, go go
You and me taking on the world like woh
Just say

Baby I'm ready for the future
As long as it's with you
As long as it's with you
With you
I'm so ready for the future
As long as it's with you
As long as it's with you
With you

Baby, I'm so ready
Yeah, yeah
Yeah, yeah
I'm so ready
Like I never been ready before
Like I never been ready before
Woh oh
Baby I'm ready
