Get Lost

Billy Crawford

Me and you in stereo
Headed to a place where nobody knows our name
Maybe we can go
Somewhere on an island
In another time
When things are slow

Cause I just wanna chill with you
Something I could feel with you
Baby we could go somewhere
Put the deuces in the air
I'm done

All I need is you
We can hop up in the coupe
Put the world in our rear view
World in our rear view, world in our rear view
See, all I need is you
Pack a bag for two
Put the world in our rear view

We can get lost
Leave it all behind us
Go somewhere where somebody else can find us
Lost
Feet up on the dash
Puff'n through the city with a bag full of cash
Lost
Leave it all behind us
Go somewhere where somebody else can find us
Lost
Feet up on the dash
Puff'n through the city with a bag full of cash
Lost

Caught up in the stress
Leave it all behind us
Nowhere they can find us
Throw away the GPS
Cause I don't wanna know baby
Let's just hit the road and go

Cause I just wanna chill with you
Something I could feel with you
Baby we can go somewhere
Middle finger in the air
I'm done

All I need is you
We can hop up in the coupe
Put the world in our rear view
World in our rear view, world in our rear view
 (All I need is you)
See, all I need is you
Pack a bag for two
Put the world in our rear view

We can get lost
Leave it all behind us
Go somewhere where somebody else can find us
Lost
Feet up on the dash
Puff'n through the city with a bag full of cash
Lost
Leave it all behind us
Go somewhere where somebody else can find us
Lost
Feet up on the dash
Puff'n through the city with a bag full of cash
Lost

Lost
Leave it all behind us
Go somewhere where somebody else can find us
Lost
Feet up on the dash
Puff'n through the city with a bag full of cash
Lost
Leave it all behind us
Go somewhere where somebody else can find us
Lost
Feet up on the dash
Puff'n through the city with a bag full of cash
Lost

We can get lost
Lost
We can get lost
Lost
